

To the Valued Patients of Soft Touch Dental:

In the wake of COVID-19, our dental office has begun implementing a series of safety protocols and practices. These practices were developed in compliance with CDC safety recommendations and guidelines, and were developed to protect the health and safety of our staff and our patients.

We value the health of our patients and our staff, and we appreciate your continued devotion to adhere to all safety protocols our office has developed. To ensure your health is made a priority, and the health of our staff is safeguarded, we kindly ask the following of all new and existing patients:

- Please arrive for your appointment at the precise time of your appointment, and not before.
- Please make sure family members remain at home. Only clients are allowed into our practice at this time.
- Once in the clinical area, please wash your hands, and practice social distancing of at least 6 feet.
- Wear a face mask as you enter and leave the building, and at any time you are not receiving treatment.
- Submit to a temperature check prior to treatment, to make sure no illness is present.

The safety of our employees and clients remain a top priority in our practice, and we continue to monitor the situation closely. We will periodically update all company guidance developed alongside current CDC and WHO recommendations.

To prevent COVID-19's spread and reduce the likelihood of exposure in our office, we require incoming patients to fill out a screening questionnaire prior to their appointment.

Thank you for your time and cooperation! We look forward to seeing you at your next visit.

-The Staff at Soft Touch Dental
